BFT Wallpaper 2021

Wallpaper is the boldest way to spice up any room in your space. We want to put an end to the expression "If walls could talk" and finally give them the voice they've been wanting. Soft and pastoral, this lovely wallpaper collection is the perfect mix of transitional style in a watercolour floral pattern. Featuring light-reflecting vibrancy, the ethereal pattern works great in bedrooms, living rooms, hallway or dining rooms.

Design- Ottomi Tropical

This range of wallpapers have been inspired by the Ottomi tribe living in Mexico. They have developed an international reputation for their textiles, sometimes called Ottomi fabrics and sometimes called tenangos after the valley where many Ottomi people live. These textiles have become a major product associated with Mexico, giving the Ottomi a bit more recognition in the land of the Maya and Aztecs.
Incorporating the folk art into our wallpapers, we came up with the Ottomi range of wallpapers. The water colour rendition adds a dreamy touch to the traditional ottomi art adding a touch of elegance to the age old art.

Design-Weave

Nagaland is a mountainous state in Northeast India. Tribe and clan traditions and loyalties play an important part in the life of the Nagas. Weaving is a traditional art handed down through generations in Nagaland. Each of the tribes has unique designs and colours, reflected in their striking shawls, shoulder bags, decorative spears,table mats, wood carvings, and bamboo works. Among many tribes, the design of the shawl denotes the social status of the wearer. The Chang Shawl of Nagaland is famous in India and abroad. Geometrical forms and splicity of the weave, inspired us to created the CHANG WEAVE inspired wallpapers.
