Kokeshi Candelabras

Description : A perky set of stackable and reconfigurable candle holders to elevate your home decor.

The candle holders are designed in Japandi style of designs. The candle holders are minimalist designs that are aesthetically pleasing and highly functional. The candelabras glorify the beauty of handmade products with a focus on the quality of the product.

The forms of the candelabras are derived from various craft inventions. The stackability of the candelabras comes from the installation of earthen pots (*Matki*) made by earthenware craftsmen to sell pots in rural India. The soft rounded forms are derived abstractions of the handmade Kokeshi dolls from Japan. The Kokeshi dolls are referred to as a lucky charm that bring hopes for bountiful harvests, wishes for good luck and fortune, and great appreciation for craftsmanship and culture. The candelabras like the dolls are quintessential gifts to spread happiness and joy.

Akshara

Akshara is a range of cement objects inspired by the Devanagari script. The three letters developed currently are ई, त and फ. The objects were designed as organizers for cards and pens, but they also double up as paperweights. They make quite a statement when placed at your desk or workstation. The individual blocks can be placed as a standalone or as a group to create a rich heritage look.
